

Only Rain Down the Drain

Community Service Opportunity

Our actions create the *# 1 Pollution Source in Puget Sound* today. Rainwater carries millions of pounds of pollutants from our neighborhoods into our streams and then into Puget Sound every year. The oils, soaps, trash, pet waste, fertilizers and chemicals that leave our yards and streets do not get treated! This can affect our ability to spend time in the water, harvest from local beaches and negatively impact the Orca, crab, salmon and other wildlife that live there.

You Can Raise Awareness About This!

Volunteer now! Remind others that...

"Only Rain Goes Down the Drain"

Place storm drain medallions **in Mukilteo**.

Medallions are a visual reminder that storm drains connect directly to streams and Puget Sound.

Storm drain medallion placed on the curb.

Whether you want to help out as an individual, as a family, or with a group, you can help to keep Mukilteo and Puget Sound waters clean!

What Would I Be Doing?

You and your group will be given a storm drain marking kit with everything you need to install the “No Dumping. Drains to Stream” medallions.

A WSU Beach Watcher can accompany you and provide instruction on how to place the medallions properly and safely!

You Get To Decide How Much You Want To Do!

You are welcome to take a specific number of storm drain medallions that you want to place or, spend a specific amount of time installing the medallions. You choose!

Sign Up, It's Easy!

Please contact WSU Beach Watchers with details on:

1. When you want to do your project
2. How many people are going to participate
3. If you have a target Mukilteo neighborhood in mind!

What If I See Dumping in Drains?

If you see someone dumping anything (paint, motor oil, etc.) down a storm drain, please report it to the City of Mukilteo at (425) 263-8088.

WSU Extension programs are open to all without discrimination.
