Don't have time to become a Park Steward?

Volunteer for a one day project.

Volunteer and Explore Your Parks!

Do you enjoy the out-of-doors? Volunteering in your parks is a great way to get outside and connect with community members while working on a project that will make a difference.

Who Can Volunteer:

Anyone; individuals, couples, families, students and organized groups. Those under 18-years of age may volunteer with the signed permission of a parent or guardian.

General Information:

Events begin with an overview of the project with an emphasis throughout the day on safety, fun, learning and a sense of accomplishment.

Projects run rain or shine, so come prepared and check the weather!

Suggest you dress in layers of older clothes that include long pants, long sleeve shirt and a jacket. Durable footwear such as work boots, hiking boots or running shoes are recommended. All volunteers are required to wear close-toed shoes at the projects.

Some of the worksites are exposed, so bring sun gear too if you think it will be a sunny day.

Volunteer Get Outside Event Dates:

9:00am - Saturday, July 30
Japanese Gulch Park, 76th Street Trailhead

9:00am – Saturday, August 13
Tails and Trails Dog Park, 5th Street

To Register for a Volunteer Get Outside Project:

Go to:
earthcorps.org/volunteer.php
Projects have a maximum amount of volunteer spaces available so sign up early!

CITY OF MUKILTEO
Recreation and Cultural Services Department

Mukilteo Recreation Department in partnership with EarthCorps Presents:

Mukilteo Park Stewardship Program

Get Active, Get Outside, Volunteer!

LOCAL RESTORATION EARTH CORPS GLOBAL LEADERSHIP

Why Stewardship Is Important:

The Stewardship Program engages a community of local stewards in the conservation of parklands in Mukilteo. Whether protecting endangered species, restoring historic elements, protecting wetlands, or improving trails; community support and hands-on education is critical to maintaining and sustaining these important resources. Stewardship is a great way to connect with the community while engaging in healthy activities that enhances the quality of life for all Mukilteo residents.

Together, we are park transformers and sustainers, committed to making our parks the best they can be, for all, forever!

For more information on the Stewardship Program or to register:

Stewardship Program Training Workshops

The Stewardship Program is designed to engage volunteers in the long-term sustainability of natural areas in Mukilteo. To become a Park Steward we ask you to attend four lectures and hands-on field workshops, see information below on training. Once trained, stewards commit to at least 25 hours within a year to the program. (Missing one of the trainings will not disqualify you from becoming a park steward.)

Age: 18 years and up

Instructor: EarthCorps & City Staff

Register: earthcorps.org/volunteer.php
