<i>Standard:</i>	<i>0:05:30</i>	<i>0:05:30</i>

Time Tracking	All Incidents	MFD Unit First	Other Unit First
Dispatch to Enroute:	0:02:46	0:02:43	0:03:17
<i>Standard:</i>	<i>0:02:00</i>	<i>0:02:00</i>	<i>0:02:00</i>
Enroute to On-scene:	0:07:06	0:05:46	0:09:21
Dispatch to On-scene:	0:09:11	0:08:22	0:12:38
<i>[Measured to 90th Percentile]</i>			

All data is derived from a monthly export of response data from the New World Computer Aided Dispatch system.

Top Incident Types tracks the most common responses in Mukilteo and the most common responses for Mukilteo units on Automatic Aid.

First on Scene tracks who arrived first for incidents in Mukilteo, as well as incidents where a Mukilteo unit was unavailable to respond.

Structure Fires tracks the number of structure fires in the City for the month, the response time for the first unit on the scene and the response time for the first alarm assignment. These response times are measured against the standard at the 90th percentile.

EMS Calls tracks the response time for the first arriving unit and the advanced life support unit (which may be the same unit) for all EMS calls in the City. These response times are measured against the standard at the 90th percentile.

District Distribution displays the breakdown of calls between the northern part of the city (north of 84th Street) which is Station 24's district and the southern part of the city (south of 84th Street) which is Station 25's district.

Time Tracking displays the time from dispatch to enroute, enroute to on-scene and dispatch to on-scene for all emergency incidents, emergency incidents with a Mukilteo unit on scene first, and emergency incidents where the first unit on scene was not a Mukilteo unit.

MFD Unit Responses tracks the number of responses for each Mukilteo Fire unit in Mukilteo and out of the city.

Auto-Aid tracks the number of responses to Mukilteo by automatic aid units and the number of automatic aid responses made by Mukilteo units to that department's calls.
