

BIKE - TRANSIT - WALK PLAN

WASHINGTON AVENUE GREENWAY DRAFT

1. NORTH WASHINGTON AVE

Existing corridor route of 'Stair Steps' for connection to Goat Trail Road. Improvements could include improved pedestrian amenities, traffic calming, and bike sharrows.

2. GOAT TRAIL ROAD

Existing corridor route of 'Stair Steps' for connection to 44th Ave West. Improvements could include improved pedestrian amenities, traffic calming, and bike sharrows.

3. GOAT TRAIL PARK

New route through Goat Trail Park. Improvements for the connection could include the possibility of a bridge and shared use path of packed gravel or asphalt.

4. MID-WASHINGTON AVE

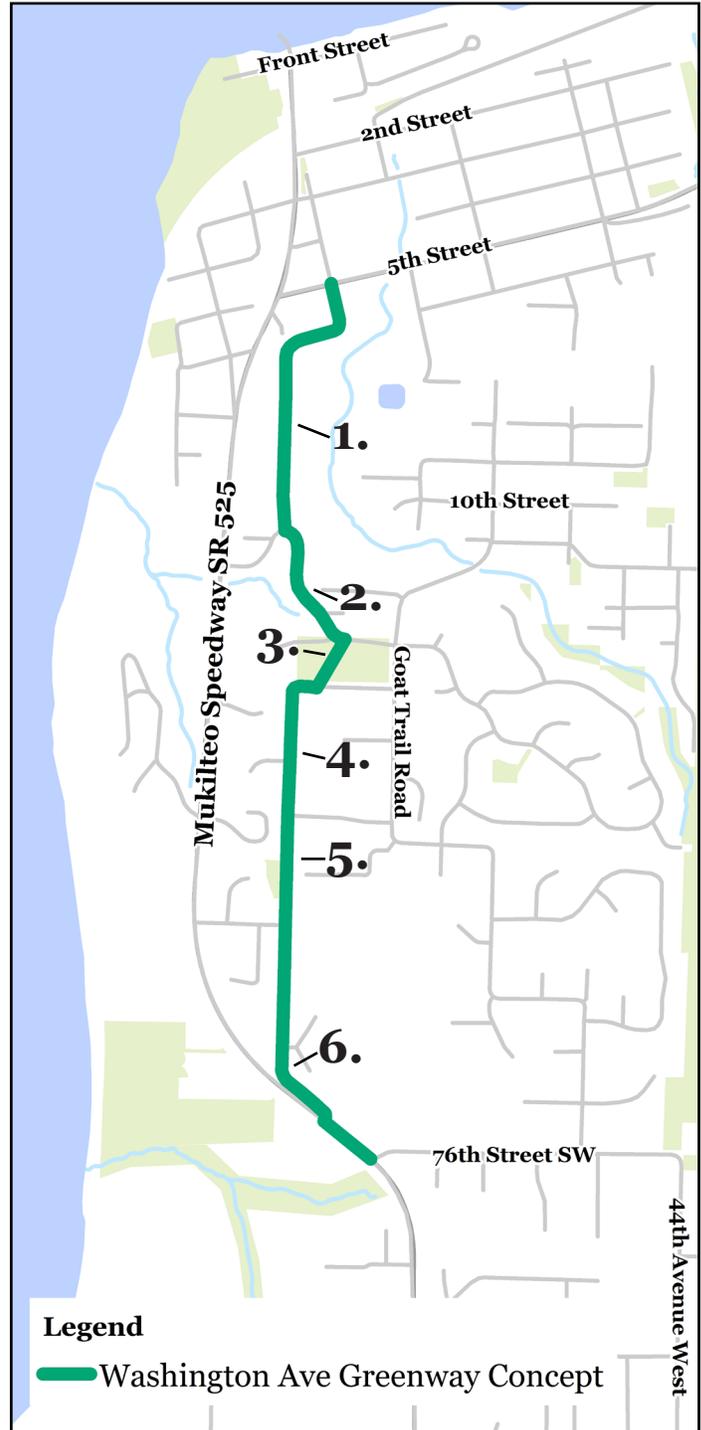

Existing roadway with nearly completed sidewalks. Improvements could include connecting the sidewalks and bike sharrows.

5. SOUTH GAP

New route utilizing unopened right-of-way to connect Possession View Lane to Clover Lane via Washington Avenue. Improvements could be similar to Goat Trail Park with additional vegetative screening to maintain privacy.

6. SOUTH WASHINGTON AVE

Existing roadway with existing sidewalks. Improvements could include wayfinding signage at SR 525, traffic calming, and bike sharrows.
