[WARNING: THIS MESSAGE HAS COME FROM A SENDER OUTSIDE THE CITY OF MUKILTEO NETWORK,]

Linda,

Here is a sketch of where I dug soil pits at this site. But both soil pits were located in the lowest ground with the greatest likelihood for water but did not meet the wetland criteria. Unfortunately I lost my field logbook so I don't have the data that I collected.

[WARNING: THIS MESSAGE HAS COME FROM A SENDER OUTSIDE THE CITY OF MUKILTEO NETWORK,]

Linda,

Do I have permission to visit the site in your absence? I could go out while you are on vacation and determine if any wetlands exist.

Doug,

I would like to schedule a site visit with you on some property that is proposing a development of 7 lots. The critical area assessment states there are no wetlands on the property, however a document done in 2014 shows a wetland on the property but I have not been able to locate the report. If Ecology could walk the site and verify if the assessment is correct. I am out of the office beginning Friday, December 17<sup>th</sup> and returning on January 5<sup>th</sup>. Please let me know if you are available to visit the site. I have attached the document for your review.

*Note: Mukilteo City Hall is currently open Monday through Thursday from 7:30 AM-5:00 PM. The building is closed for lunch from 12-1 PM and closed to the public on Fridays. City staff is also available to assist you remotely during regular business hours. Please call 425-263-8000 if you need assistance.*

Sincerely,

**Linda Ritter**
