This letter is an official notice that the application for the project listed above is considered:

☒ **COMPLETE as of November 14, 2023**

About Complete Applications

An application is complete when it meets the submission requirements outlined in the Mukilteo Municipal Code (MMC). A complete application means that all the required items are in a comprehensible format and contain enough information to begin review of the application. It does not mean that the application is approved, or that the use or construction may begin.

Next Steps

The city will now begin review of the application against the technical requirements of the MMC. This review may result in a request for revisions, additional information, or other studies if the proposal does not meet the requirements or if there are substantial changes to the application.
