

SUMMER CAMP

CITY OF
MUKILTEO

Recreation and Cultural Services
Department

STEMTREE[®]
Your Education Center
K-12 Science & Engineering

Kids will build and code robots as well as, create and develop computer programs (games, stories, art, etc.). Stemtree curriculum utilizes LEGO Robotics kits and Scratch to give all students an opportunity to think creatively, communicate clearly, use technology fluently, and collaborate effectively. Individualized learning plans make Stemtree camps a non-repetitive experience.

There is always something new to learn.

Robotics and Coding Camp
