Re: Proposed Two Story Addition to the existing Church**Narrative/Description:**

The existing church is located in an Industrial Park zone. We are planning a 9000 sf (approx.) two story addition onto the West side of the existing Church. The addition will contain a volleyball court and classrooms This will be a 2-story addition where the classrooms are located. And we are also planning on adding about 38+ new parking stalls to the site (see attached Parking Analysis)
