## Traffic Action Plan

### City of Mukilteo Traffic Calming Program

September 5, 2017

Anne Steinmetz

Mukilteo, WA 98275

Re: Speeding Concerns on 3rd Street

Dear Anne,

Thank you for contacting the City of Mukilteo and sharing your concerns with vehicle speeds on 3rd Street. We have completed a field review and data analysis on 3rd Street and compiled this information into this Traffic Action Plan (TAP), as well as our recommendations.

Two speed studies were conducted in the 800 Block of 3rd Street. The first location was selected by staff to capture the highest speeds possible, however based on feedback we received from you we conducted a speed study at the second location to move it further away from the stop sign at Loveland Avenue, as you believed vehicle speeds would be higher further away from the intersection and closer to the Rosehill Community Center.

The first speed study began on June 12, 2017 and ended on June 22, 2017. The study shows 85% of motorists are traveling at or below 28 mph in the eastbound direction and at or below 30 mph in the westbound direction. There were 2,943 vehicles recorded traveling eastbound, and 1,267 traveling westbound during the 10 day speed study.

The second speed study began on July 13, 2017 and ended on July 25, 2017. The study shows 85% of motorists are traveling at or below 25 mph in the eastbound direction and at or below 24 mph in the westbound direction. There were 4,317 vehicles recorded traveling eastbound, and 2,696 traveling westbound during the 12 day speed study.

The City strongly encourages you to contact our Crime Prevention Volunteers at [crimeprevention@mukilteowa.gov](mailto:crimeprevention@mukilteowa.gov) to conduct neighborhood speed watches. More information about this wonderful program can be found at <https://mukilteowa.gov/departments/police/volunteers-in-public-safety/>. In addition, we encourage you and your neighbors to participate in one of our education programs as described on page 3 of this report.

Again, thank you for sharing your concerns with us. We look forward to working with you and your neighbors on the programs suggested to address your traffic concerns. Please feel free to contact Challis Stringer at [cstringer@mukilteowa.gov](mailto:cstringer@mukilteowa.gov) or 425.263.8082 regarding any of the information in this TAP.

Sincerely,

Assistant Police Chief

## Location of Speed Studies

June 12-22, 2017 Speed Study 800 Block 3rd Street

July 13-25, 2017 Speed Study 800 Block 3rd Street

## Summary of

## Findings

Date	Location	Average Daily Traffic	Average Speeds	85% of vehicles traveling at or below this speed
June 12, 2017— June 22, 2017	800 Block 3rd Street— Eastbound	294	23 MPH	28 MPH
June 12, 2017— June 22, 2017	800 Block 3rd Street— Westbound	126	25 MPH	30 MPH
July 13, 2017— July 25, 2017	800 Block 3rd Street — Eastbound	360	20 MPH	25 MPH
July 13, 2017— July 25, 2017	800 Block 3rd Street — Westbound	264	19 MPH	24 MPH

## Customized Traffic Action Plan for 3rd Street

### Education, Encouragement, and Enforcement

By educating the community and encouraging safe driving, we can begin to change driver behavior and reduce vehicle speeds.

### Traffic Enforcement

The Public Works Department works closely with the Police Department to enforce speed limits and other traffic laws in neighborhoods. Using key traffic data provided by Public Works staff, officers focus their scheduled patrols on the times and places where speeding most often occurs. Typically, targeted enforcement occurs during a one-week timeframe. Enforcement is also available by request to Mukilteo residents.

### Neighborhood Speed Watch Programs

The Neighborhood Speed Watch is a public awareness program that provides citizens with partnership opportunities in solving speeding problems in their neighborhood. Residents monitor the speed of vehicles with radar equipment on loan from the Police Department. Police staff train residents on how to use the radar unit to record the license plate numbers of those motorists driving at least 5 mph above the posted speed limit. A letter is sent from the Police Department to the registered owners of those vehicles informing them of the observed violation and encourages them or the other drivers of their vehicle to drive at or below the posted speed limit. Since this is a community awareness program, no formal citations or fines are issued.

A short 1 hour training session is provided to the requestor by City staff. The requestor collects motorists' data and submits the results to City Staff. To participate in this program, please call 425.263.8100.

### Radar Trailer/Dolly

The radar trailer/dolly is a portable trailer equipped with a radar unit which detects the speed of passing vehicles and displays the speed on a reader board. The goal is to heighten driver's awareness of both the speed at which they are traveling and the posted speed limit. This encourages drivers to adjust their speeds, if needed.

Police Officers or Police Volunteers will place the radar trailer or dolly at location as requested. The Police Department may use the trailer as a "speed checkpoint" and have an officer present to issue citations to violators. To request a radar speed trailer be placed at a particular location, call 425.263.8100.
