### **MUKILTEO WATER AND WASTEWATER DISTRICT 2021 WATER SYSTEM IMPROVEMENTS**

#### **Notice:**

The Mukilteo Water and Wastewater District's (District) Contractor, Shoreline Construction, Inc. is scheduled to begin construction on the 2021 Water System Improvements Project on Monday, March 1st. This project will replace approximately 2,200 lineal feet of 4-inch cast iron water main with restraint joint 8-inch ductile iron water main. The project is located in several separate locations between Park St and Campbell Ave on 10<sup>th</sup> St, between Park St and Loveland Ave on 9<sup>th</sup> St and a portion of 8<sup>th</sup> St to Campbell Ave (see attached map for the Project Area). We anticipate the Construction to take up to three months, weather dependent.

#### **Impacts:**

The construction operations for this project will impact traffic in/along the streets named above and the general area surrounding them. The new pipe is to be installed in the existing pavement. Once completed, the entire surface of the impacted traffic lane and the adjacent lane (full street width) will be re-paved. The Contractor will do the best they can to provide local access during construction. Residents will continue to have uninterrupted water service during the project with the exception of an approximate 20 minute interruption towards the end of the project to switch the services over to the new main.

Some traffic lanes will be temporarily closed during construction with flaggers helping to direct traffic around the work zones. There will be some temporary/short term loss of parking as equipment is utilized and the pipes are installed along the streets.

#### **Contact for Questions:**

There is never a good time for these types of projects. They are essential and necessary for the District to continue to supply reliable, safe and clean water for both consumption and firefighting uses. The District appreciates your understanding and apologizes for any inconvenience this may cause. Please feel free to contact Operations/Engineering Manager Rick Matthews at [rickm@mukilteowwd.org](mailto:rickm@mukilteowwd.org) or 425-355-3355 for any questions or concerns with the project. Updates on the project will be available periodically on our website at [www.mukilteowwd.org](http://www.mukilteowwd.org).
