MUKILTEO WATER AND WASTEWATER DISTRICT SEWER LIFT STATION 9 REPLACEMENT PROJECT

Notice:

The Mukilteo Water and Wastewater District's (District) Contractor, Interwest Construction Inc. is scheduled to begin construction on the Sewer Lift Station 9 Replacement Project on Monday, April 27th. This project will consist of accessibility, reliability, redundancy and capacity improvements. The Lift station was originally constructed by the City of Mukilteo and is located along the Railroad Right of Way at the intersection of Park Street and Mukilteo Lane (see attached map for the Project Area). We anticipate the Construction to take six months to complete, weather dependent.

Impacts:

The construction operations for this project will impact traffic in/along the intersection of the streets named above and the general area surrounding it. The upgrades to the station are to be installed in the same existing location. The Contractor will do the best they can to accommodate local access during construction. Residents will continue to have uninterrupted water and sewer service during the project.

Some traffic lanes in the immediate area will be temporarily closed at times during construction with flaggers helping to direct traffic around the work zone. There will be some temporary/short term loss of parking as equipment and materials are stored along the streets.

Contact for Questions:

There is never a good time for these types of projects. They are essential and necessary for the District to continue to supply reliable and safe services to our customers. The District appreciates your understanding and apologizes for any inconvenience this may cause. Please feel free to contact Operations/Engineering Manager Rick Matthews at rickm@mukilteowwd.org or 425-355-3355 for any questions or concerns with the project. Updates on the project will be available periodically on our website at www.mukilteowwd.org.
