Notice of Application and Optional SEPA Notice

ProGranite Culvert Replacement and Stormwater Improvements 12303, 12313, and 12230 Cyrus Way

ProGranite applied for a Project Permit with the City of Mukilteo on March 14, 2019. The application became complete on April 3, 2019.

Description of Proposal: This is a proposal by ProGranite to replace, upgrade, and straighten the existing piped stream system on 12303, 12313 and 12230 Cyrus Way to allow for better operation and maintenance and to minimize known flooding problems directly west of the site. This piped stream reconstruction proposal includes increasing the existing 12-inch and 15-inch diameter pipes to 18-inch diameter pipes. Overall piped stream length will be reduced from approximately 612 linear feet to approximately 585 linear feet.

Location of Proposal: 12303, 12313 and 12230 Cyrus Way

Optional DNS Process to be Used:

The City's State Environmental Policy Act (SEPA) responsible official has a reasonable basis for determining that significant adverse impacts are unlikely and/or can be mitigated, and expects to issue a Mitigated Determination of Non-Significance (MDNS) pursuant to the optional DNS process under Washington Administrative Code 197-11-355 and Mukilteo Municipal Code (MMC) 17.84.105. **This may be the only opportunity to comment on the environmental impacts of the proposal.** Project approval may include mitigation measures under MMC Chapter 13.12 – Drainage Management and MMC Chapter 17.52 – Critical Areas Regulations, 17.52B – Wetland Regulations and 17.52C - Fish and Wildlife Habitat Conservation Areas (Outside Shoreline Jurisdiction). Also, the project review process may incorporate or require mitigation measures regardless of whether an Environmental Impact Statement is prepared. A copy of the subsequent threshold determination for the proposal may be obtained upon request.

Environmental Documents Prepared for the Proposal:

- Environmental Checklist prepared by Jesse Jarrell dated November 7, 2018
- Critical Areas Study and Buffer Mitigation Plan prepared by ACRE Environmental Consulting, LLC dated February 28, 2019
- Targeted Drainage Report for ProGranite Drainage Revision prepared by Western Engineers and Surveyors dated January 21, 2019

List of Required Permits:

- Engineering
- Project Permit
- Any applicable State and Federal Permits

Applicable Policies and Requirements

The project will be reviewed for consistency with the following policies, standards and regulations:

- | | |
|---|--|
| <input type="checkbox"/> Possession Shores Master Plan | <input type="checkbox"/> Sector Plan & Amendments |
| <input checked="" type="checkbox"/> Comprehensive Plan, Shoreline Master Plan | <input checked="" type="checkbox"/> Mukilteo Municipal Code |
| <input type="checkbox"/> International Building Code (2015 Edition) | <input checked="" type="checkbox"/> City of Mukilteo Development Standards |
| <input type="checkbox"/> International Fire Code (2015 Edition) | |

Mitigation Measures Being Considered

Measures being considered to mitigate environmental impacts if an MDNS is issued include:

1. The applicant shall comply with the Critical Areas Study and Buffer Mitigation Plan prepared by ACRE Environmental Consulting, LLC dated February 28, 2019, for any permanent or temporary impacts to the wetlands, streams or their associated buffer, unless the mitigation plan is otherwise subsequently modified and approved by all applicable regulatory agencies.
2. Mitigation plantings shall be installed in accordance with the approved Mitigation Plan, and shall be subject the following:
 - a. The mitigation and/or buffer enhancement site(s) shall be monitored for a minimum of five (5) years. The monitoring period required by the City may be extended an additional two (2) years if the wetland or stream buffer is not performing as expected by the mitigation or enhancement plan. The monitoring reports shall be submitted on August 1st of each year during the monitoring period. Monitoring reports shall follow the recommendations contained in the Department of Ecology's publication "Guidance on Wetland Mitigation in Washington State," Part Two.
 - b. The applicant shall be responsible for ensuring that the reports are prepared, submitted, and any corrections are made as required by the reports or the City.
 - c. Prior to issuance of an engineering permit, all plantings associated with a project permit shall require the submittal of an acceptable maintenance agreement to warrant all required plantings against defects in labor and materials for a period of five (5) years after acceptance of those improvements by the City.
 - d. All plantings shall be maintained in healthy growing condition. A final inspection will be performed at the end of the five-(5) year period and any dead, dying or diseased plant material shall be replaced prior to release from the agreement.
3. Minor modifications of the mitigation plans submitted may be approved by the Community Development Director if the modifications do not change the findings of fact or the conditions of approval.
4. All work shall proceed in accordance with the approved Hydraulic Permit Approval (HPA) issued by the Washington State Department of Fish and Wildlife.
5. Construction, grading, and associated site development shall follow recommendations presented in approved stormwater report prepared for the ProGranite culvert replacement and drainage improvement project.
6. The applicant shall comply with all other applicable codes, regulations and requirements.

Comment Period

This application and all supporting documents are available for public review at Mukilteo City Hall, 11930 Cyrus Way, Mukilteo WA 98275. (File No. PPR-2019-004). The public is invited to submit written comments on the project to the Community Development Department at the above address by **4:30 PM on Wednesday, May 1, 2019.**

The City will not act on this application until the end of the 14-day public comment period. Upon completion of project review, the proposed application will be administratively approved, approved with conditions, or denied. You may request a copy of the final decision on the project by making a written request to the City contact person named below.

Public Hearing

There will not be a public hearing conducted on this project.

Appeals

The final decision on this project is administratively appealable. An appeal must be filed within 14 days after the final decision on the project is issued. Only parties of record may initiate an administrative appeal of a land use development permit application. Parties of record include the applicant, any person who testified at the open record hearing on the application (if a public hearing was held), and/or any person who submitted written comments concerning the application (excluding persons who have only signed petitions or mechanically produced form letters).
