Pollution Prevention Considerations

Mukilteo Municipal Code Section 13.12.080: “No person shall throw, drain, or otherwise discharge, cause or allow others under its control to throw, drain, or otherwise discharge into the municipal storm drain system and/or surface and ground waters, any materials other than stormwater...”

This form applies to all projects that require a Planning/Building Permit, without an engineering permit. By initialing each box below, the applicant is verifying that it is true for the project.

Initials

Pollution Prevention Measures

CE	<ul style="list-style-type: none"> • My site is already developed, with existing vegetation. • Only the project area indicated on the Permit Application will be disturbed.
CE	<ul style="list-style-type: none"> • There will be no dewatering (dewatering is removing of groundwater or surface water from a construction site).
CE	<ul style="list-style-type: none"> • No dirt will be allowed to run off the property, enter the road, storm drains, ditches, streams, wetlands, or other water bodies. • If dirt will be moved off the site, all storm drain inlets within 150 feet of the project will have storm drain inlet protection (also known as catch basin inserts).
CE	<ul style="list-style-type: none"> • My existing, paved or gravel driveway will be the construction entrance. • Any construction-related dirt and debris will be swept off the driveway and put into a trash can. • No pressure washing debris/water will enter the road, storm drains, or waterways.
CE	<ul style="list-style-type: none"> • All soil piles not worked for more than 2 days will be covered with plastic. • Disturbed soil will have temporary cover (such as straw) during the project, when not being worked on. • When the project is complete, disturbed soils will be seeded, vegetated, and/or mulched.
CE	<ul style="list-style-type: none"> • All project waste (pollutants) will be kept off of roads, and out of storm drains, ditches, streams, and wetlands. • Anticipated waste products are identified below.
CE	<ul style="list-style-type: none"> • All erosion control measures, catch basin inserts, and pollutant controls will be removed prior to issuance of the project’s final permit acceptance. • All wastes will be disposed of properly.

Anticipated waste products for this project include (initial all that apply):

- | | |
|---|--|
| <p>_____ Exposed concrete aggregate waste</p> <p>_____ water or other concrete wash out waste</p> <p>_____ Paint and/or Stains</p> <p>_____ Cleaning solutions or other chemicals</p> <p>_____ or materials</p> | <p>_____ Solid waste</p> <p>_____ Pressure washing waste</p> <p>x _____ Soil, rock, or other earthen debris</p> <p>_____ Other _____</p> <p>_____ None _____</p> |
|---|--|
